## Warranty Repair Request

If there are some items in your home needing attention, please complete this form and return it to our office. This warranty service is provided as a benefit to you. Warranty items only, please. General homeowner maintenance items are not covered. Please see your **Homeowner's Handbook** for questions regarding warrantable items.

**This** form is to be used before the one-year anniversary of your closing date. It is advantageous for you to wait until after 10-months to return this form in case you should find more than one item for our subcontractors. Our subcontractors will only come once to repair their warranty items and will repair them all at the same time. Of course, this does not include items that require immediate attention.
